

Networking To Learn Seminars

Series III: Practical Solutions

Presented by:

“ Minimize Your Tax Payable “

The objective of this series of meetings is to provide a platform for ACCE members and guests to network and learn from each other and past Award Winners.

After the Chinese New Year, Canadians will get busy again to gather information to file their tax returns, which are due on April 30, 2007. There are many changes in tax rates, tax credits and deductions this year. If you want to **maximize your tax refund or minimize your tax payable**, you should come out to this month's "Networking To Learn" event. We have invited Mr. Charles Fu, Tax Specialist of Mintz & Partners to provide tax updates. In order to let us understand more about these changes, we are also honoured to have Mr. Andy Yap, Tax Partner in Mintz & Partners to analyze these changes and its impact on your tax position.
