HKCBA organizes these workshops to encourage Canadian business – particularly small and medium enterprises - to take the opportunity and initiative to expand their business activities by taking advantage of the exciting opportunities that are available – now and increasingly in the future – in the rapidly growing Asia marketplace. These Workshops provide advice and examples as to how SMEs may do this, in confidence and safety, by using Hong Kong as their business platform to cover the regional markets in other parts of China and Southeast Asia.

This Workshop will cover such topics as:

- the opportunities, accessing market intelligence, risk management and more
- how to sell, locate, monitor, finance, inputs and goods using reliable sources in Hong Kong and Mainland China
- how to start, the services and initiatives available; business matching services, sector-specific missions to HK, available government funding, etc.
- what you need to know about doing business in Hong Kong, Mainland China and Asia
