

Message from the President

As ACCE begins its 31st year, I reflect on how far we've come—and how far we're prepared to go. My training as an engineer has always taught me that progress depends on both precision and collaboration—and ACCE's journey has exemplified that balance.

In the semiconductor and AI hardware world, progress is rarely linear. It's built through deliberate design, adaptability and systems that work under pressure. That same mindset has guided ACCE's growth—and continues to shape how we support the entrepreneurs we serve.

We've seen that momentum in action during recent events:

- The ACCE Golf Classic in June brought together over 100 members and guests for a day of networking and camaraderie.
- At our Annual General Meeting in September, we welcomed new board members and aligned ourselves on a shared strategic vision.
- The Awards Appreciation Reception gave us a chance to recognize the many volunteers, sponsors and contributors whose dedication powers our community.
- Our Mandarin Speaking Series in October featured the panel “擁抱變化：在經濟風浪中尋找突破” (“Embracing Change: Finding Breakthroughs in Economic Turbulence”), delivering timely insights for navigating today's business climate.

Once again, we gathered in October for the ACCE West Coast Gala in Vancouver, where

over 300 attendees celebrated Chinese Canadian entrepreneurship in a powerful display of coast-to-coast unity.

Internationally, ACCE continued to foster global engagement through our participation at the China International Import Expo (CIIE) in Shanghai. Our fireside seminar earlier this month, “探索加拿大市場：企業成功之道” (“Exploring the Canadian Market: Pathways to Business Success”), connected Canadian and Chinese entrepreneurs around opportunities for growth and cross-border collaboration.

To our members, volunteers, directors, sponsors and partners—thank you. You are the circuitry that keeps ACCE dynamic and future-ready.

As we look ahead, let's continue to lead with purpose, learn from one another, and create space for innovation and shared success.

Warm regards,
Raymond Chik
President, ACCE
